

Our Commitment to Employee and Guests' Safety

North Lake Powell is blessed with miles of open space and beauty where there is ample room to roam, recreate and relax in uncrowded conditions. We consider ourselves neighborly without neighbors. Our vacation homes and lodge sit in one of the most remote regions of the west, we're on our own desert island without an ocean! We do, however have an amazing lake in our backyard.

Our natural surroundings, remote location and uncrowded conditions have allowed us to remain open and operate under the current conditions.

Creating an environment of safety and well-being for employees and guests is of the utmost importance. We place highest priority on best practices in keeping our guests safe by adhering to governments guidelines and we vigilantly stay apprised of changing conditions. Here's what we at Ticaboo Lodge are doing to keep our employees and guests safe during this unprecedented time:

Environmental Cleaning Practices

We are upholding the highest standard of cleanliness in our lodge rooms, dining and retail facilities and even on rental ATVs and other equipment. We follow the latest, up to date CDC and NPS best practices and the best products that may be useful to combat the spread of COVID-19, and we have also provided our employees with updated sanitation guidelines.

Employee and guest wellbeing monitoring and education:

We ensure our entire staff is updated daily on any changing conditions or practices in preventing any type of spread of illness including the common cold, influenza and Covid-19.

We also have intensified another practice and policy long in place of employee monitoring and reporting for any signs of illness and encouraging them to be cautious by staying home. We're working with our employees financially to encourage informed, unbiased decisions to stay well and prevent any spread of any illnesses.

We invite you, our valued guests, and prospective visitors to come visit Ticaboo Lodge and Hite Outpost at North Lake Powell where open space, fresh air, and scenic wonder are our trademark.
